PRODUCT DESCRIPTION

TQH43 FREESTANDING FIREPLACE 14.7KW

The Australian Standard AS/NZS4013 sets a minimum net efficiency rate of 55% for solid fuel stoves. The high performance of [Chazelles](#) TQH43 technology gives this fireplace an efficiency rating as high as 64%. This means you get more energy out of the fuel you burn with less heat loss up the flue and reduced ash residue.

Remote Control Operated

The new Chazelles THQ43 appliance offer the combined pleasure of simple operation plus exceptional energy efficiency. Reach out, press the button, and the flames will obey your commands! A calm fire, a roaring blaze or dancing flames, you decide.

With its remote control operation, you can control the fire with just a few simple presses of a button. No need to leave the comfort of your couch to adjust the flames – you can switch from a peaceful fire to a blazing inferno with ease. This feature not only provides a stress-free and convenient experience but also allows you to customize your fire to suit your needs and mood, making the THQ43 a must-have appliance for any home.

Airflow & Combustion

This technology preheats the combustion air to over 200°C and delivers it slowly and evenly over the fire, to obtain spectacular flame effects, from roaring fire to multicoloured secondary combustion flames that dance above the logs.

The tempo of the fire will intensify or slow down at the touch of a button. The remote control is equipped with a thermostat which lets you select your desired temperature, and the stove will regulate itself automatically. Available as an option on model TQH43 is the remote control kit which allows you to adjust the size of the fire without having to even get up. The remote can also be used to set your fireplace to a desired temperature and it will adjust itself accordingly. This multi function remote control kit comes with a stylish handset with clear, digital displays and a keypad which is easy to use and program.

It is a revolutionary way to control your fireplace. With its innovative design, it preheats the combustion air to over 200°C to provide stunning flame effects, from a roaring fire to colourful secondary combustion flames. With just a touch of a button, you can adjust the tempo of the fire to your liking.

This technology is equipped with a thermostat, allowing you to select your desired temperature and the stove will regulate itself automatically. The remote control kit, available as an option on model TQH43, provides an even more convenient experience. You can adjust the size of the fire or set the fireplace to your desired temperature without even getting up. The multi-function remote control kit comes with a stylish, easy-to-use digital display and keypad.

The TQH43 Freestanding Fireplace from Chazelles is a top-performing heating solution for your home. With a 14.7KW heat output and dimensions of 685mm x 482mm x 807mm, this fireplace is designed to provide warmth and comfort in any room. It is built with high-performance technology that exceeds the Australian Standard AS/NZS4013 requirement of a minimum net efficiency rate of 55% for solid fuel stoves. With an efficiency rating as high as 64%, the TQH43 is designed to get more energy out of the fuel you burn, resulting in less heat loss up the flue and reduced ash residue. Enjoy a warm and cozy atmosphere in your home with the TQH43 Freestanding Fireplace. With its superior performance and sleek design, this fireplace is a great addition to any home.

FLEXIBILITY:

360° rotating fireplace, side door for convenient loading & remote control.

Flexibility is central to the TQH Concept. This model is offered with a choice of 2 stands, all of them rotate 360 degrees. This allows you to enjoy the comfort and warmth of the fire from all angles of the room. There is also a simple rotational kit available, which allows your TQ stove to rotate atop any stand of your own creation. The TQH models feature a side door for a convenient wood loading.

It is a key feature of the TQH Concept fireplace. With its 360-degree rotating design, you can enjoy the warmth and comfort of the fire from any angle in the room. The TQH Concept is offered with a choice of two stands that both can rotate 360 degrees, giving you complete control over your fire viewing experience.

For even more customization, there is also a simple rotational kit available that allows you to rotate the TQ stove atop any stand of your design. This gives you the ultimate flexibility to create a unique and personalized setup that suits your needs and preferences.

The TQH models are also designed for convenient use. The side door makes loading wood a breeze, so you can keep the fire burning without having to interrupt your enjoyment of it. The included remote control adds another level of convenience, allowing you to adjust the fire and temperature from the comfort of your couch or chair. Flexibility is at the heart of the TQH Concept, providing you with a beautiful and customizable fireplace that fits your needs and lifestyle.
