PRODUCT DESCRIPTION

The Sense has a particularly modern & elegant finish, thanks to its curved lines and a 3-sided view on the flames. It is directly connectable to outside air.

The Sense has a 'push to close' closing mechanism which allows you to slam the door to close.

The stove can easily be operated via its single air control.

An Ashbox is included.

Available in Legged or Woodstorage options.

Dovre offers you a broad range of modern, timeless, or traditional stoves made in premium cast iron, using state-of-the-art production techniques. Indeed, Dovre designs make a stylish feature in any interior.

Nothing can really match the splendour of real flames. People have been warming themselves in front of an open fire for centuries.

Dancing flames hold a huge attraction to us

Modern combustion techniques ensure that your 'closed' fire becomes a very functional and environmentally conscious way of heating and burning.

The Dovre range consists mainly of wood-burning stoves, with superior heating technology, guaranteeing an environmentally responsible combustion and high efficiency
