PRODUCT DESCRIPTION

The Lopi 4415 HO GS2 gas fireplace brings you the very best in home heating and style with its sleek, linear appearance and impressively high heat output.

With a long row of dancing flames and built-in dual fans, the 4415 is not only an excellent heater but a beautiful focal point in your home. Turn on the under-lighting that shines through the translucent glass floor and you've got magic whether the fire is on or off.

This sophisticated fireplace can accompany any architectural style with a selection of fireback liner options along with additional media options. Add traditional log and rock embers for that more classic style, or a choice of two stone options and Driftwood for a more contemporary statement.

'Did you know you can also add a power heat duct kit to heat a smaller space up to 6 metres away.'
