## PRODUCT DESCRIPTION

### BRAND NEW - Nectre Form Series - Form 1

A fresh and novel take on what a combustion heater can look like, and the only woodheater in the Australian wood heating landscape with its narrow yet deep form factor.

The sleek capsule shape is resolved with cast iron, high quality stainless steel controls and curved glass, which offers a wider view of the flames, impressive performance and heating efficiency.

The outside air capability and ability to cook on the top plate will make **Form 1** especially attractive for compact, eco-friendly housing designs, and make it a better fit for newly constructed housing in general.

### Additional Features

- 10 year firebox warranty
- Curved glass for increased viewing angle
- Cooking Zone
- Optional outside air intake kit available soon
