PRODUCT DESCRIPTION

Introducing the new and revolutionary Metters Wood Fire range—where innovation meets tradition. This timeless freestanding Australian wood heater ticks all the boxes when it comes to warmth, efficiency, convenience & sustainability.

An Aussie icon re-imagined for today's home.

Perfect for small to medium sized areas (up to 250m²) this freestanding wood heater has a timeless traditional style, with innovative fire brick and baffle plate technology inside to keep your fire burning efficiently.

Together with the convenience and no-mess of an inbuilt pull out ash box, the Kosi No.25 is a winning combination of Australian heritage and ingenuity.

With the addition of a 3 speed fan and RF remote, the radiant heat created can be better controlled and distributed. The radio frequency (RF) remote capabilities means you can easily control your fan speed from anywhere in the room.

External Room Air - using air from outside to combust the fire improves efficiency & importantly gives you better indoor air quality. An external room air system is a must for new homes, and ideal for well insulated rooms.

The new Metters Kosi No 25 is an Australian masterpiece meticulously designed for unparalleled efficiency and minimal emissions.

Proudly made in Australia!
